

# You can start using DNA Prepaid immediately!

DNA Rajaton Prepaid 4G ■ DNA Super Prepaid 4G ■ DNA Dataprepaid

# DNA Dataprepaid

**Fast 4G Internet access for tablets.** Includes 30 days of unlimited Internet use in Finland.

Ideal for users who want efficient Internet access for a tablet, 4G router or laptop with no data limits in Finland.

**The starter pack includes the following:**

- 30 days of unlimited Internet use in Finland with up to 300 Mbps speed.

It is easy to continue using the subscription, as you can purchase a suitable data package at R-Kioski outlets, with a top-up voucher or online at **laturi.dna.fi**

**All SIM card sizes:** standard SIM, micro SIM and nano SIM.

# DNA Super Prepaid 4G

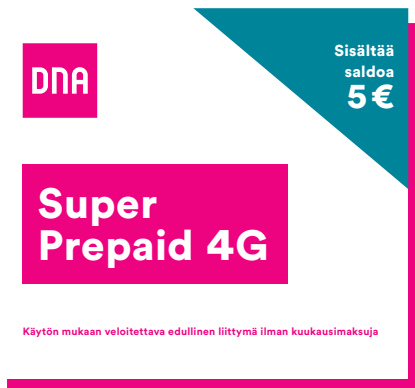

**A subscription with charging based on actual use** – intended for occasional or less active use. Also works in 4G networks.

## Charging based on use:

- Calls and text messages in Finland and in the EU/EEA cost €0.066 /min/each\*.
- Internet use in Finland is charged at €0.99 per day, and it includes unlimited use with up to 300 Mbps speed. Within the EU/EEA, the data transfer charge is the charge applied in Finland plus €0.0056/MB.
- For regular and continuous use, we offer fixed-price packages, such as 30-day unlimited 4G Internet use in Finland.

The starter pack includes **€5** of airtime.

**All SIM card sizes:** standard SIM, micro SIM and nano SIM.

You can easily check your subscription balance and validity period and view your account history in the self-service portal, [m.prepaid.dna.fi](https://m.prepaid.dna.fi), or with the DNA Prepaid mobile application (both are available in English). **You can top-up your subscription:**

- online at [laturi.dna.fi](https://laturi.dna.fi), (also available in English)
- at R-Kioski outlets
- at Otto ATMs

\* International calls from Finland, calls outside the EU/EEA and calls and messages to premium rate numbers are charged separately.

# DNA Rajaton Prepaid 4G

**A fixed-price subscription** for active use. Includes unlimited calls and text messages in Finland and in the EU/EEA and fast unlimited 4G internet use in Finland.

Perfect for users who do not want to spend time on thinking about call or text message costs or data limits. Works in 4G networks in Finland with up to 300 Mbps speed.

**The fixed daily price of €0.89 includes the following:**

- An unlimited volume of calls and messages in Finland and in the EU/EEA and unlimited internet use in Finland.\*
- Within the EU/EEA, data transfer costs €0.0056/MB.

The fixed daily price is charged on a daily basis whether or not the subscription is used. The starter pack includes **€5** of airtime.

**All SIM card sizes:** standard SIM, micro SIM and nano SIM.

**In DNA's fast 4G LTE network**, internet works smoothly, downloading and sending files is easy and, for example, watching TV shows on your phone is convenient, as the streaming quality is good.

Top speeds can be reached in the 4G LTE network while using a 4G device. The subscriptions also work in 3G networks.

\* International calls from Finland, calls outside the EU/EEA and calls and messages to premium rate numbers are charged separately.
