Additional services for broadband subscribers at a low rate

As an advantage of subscribing the DNA Netti Huoleton extra speed, residents can easily order other online and TV services according to their own needs. Choose DNA Viihdeboksi, which is the heart of home entertainment and bring with it an affordable DNA Matkanetti Huoleton 4G subscription. With DNA Digiturva, you get data security for all your home devices.

There are low-cost campaigns (preferential prices) for all these products for housing company customers all year round.

DNA Viihde. One service, many ways to enjoy entertainment.

DNA Viihde is the easiest way to enjoy entertainment. With the DNA Viihdeboksi included in the service, you get TV channels and the streaming services you subscribe to, sharp picture quality and excellent sound, all in one place and for a single monthly fee. Everything works seamlessly together, giving you a better entertainment experience without the need for multiple separate devices. You can also try the DNA Viihde service with a 30-day satisfaction guarantee.

You can expand the service according to your needs, for example with rear speakers, karaoke microphones, an additional subscription, a recording service and additional content.

DNA Matkanetti Huoleton 4G

As an advantage of subscribing the DNA Netti Huoleton extra speed, you can get Matkanetti at a housing company customer's discount rate for a tablet or mobile modem alias mokkula. The DNA Matkanetti Huoleton 4G service includes a fast internet connection that works throughout Finland via the included sim card.

DNA Digiturva

DNA Digiturva is a comprehensive service for ensuring the digital security of the entire family. Use DNA Digiturva to keep you safe from digital security threats and protect your devices, personal data, online banking and surfing, easily with just one service.

In addition to a **DNA Netti Huoleton** subscription, you will need a modem for your home. If your housing company's broadband uses an Ethernet cable and you want to share Internet access between several devices, DNA recommends the DNA router for Ethernet households. Additional information regarding modems: dna.fi (in Finnish)

DNA's general terms and conditions of contract and special terms apply to the subscription.
